

DEXcenter™

Collaboration & Process Automation

DEXcenter is a secure, scalable enterprise portal solution for effectively managing data exchange, including CAD translations, between suppliers and customers. DEXcenter’s automated translation and transmission processes get data to partners more quickly, allowing companies to decrease time-to-market for new products.

“DEXcenter’s consistency and reliability translates into improved process efficiency and significant time savings.”

*K.J. Kim
Samsung Electronics, Inc.*

Features

- Push Button Exchange—easy for even non-CAD users
- Secure encrypted transmission via HTTPS and SFTP
- Regulatory compliance and tracking
- Robust, configurable, dynamic translation with validation
- Over 100 CAD translation, repair and validation functions
- CADfix for healing and repair
- CADIQ for validation
- Quick implementation for fast ROI
