

*"DEXcenter provides a proven method for exchanging product data."*

K..J. Kim  
Samsung Electronics, Inc.

DEXcenter is a scalable, secure, enterprise portal solution used to manage the CAD data exchange process between suppliers and customers. DEXcenter automates the translation and transmission of product data to help companies decrease their time-to-market..

### FEATURES

- Easy-to-use interface makes data exchange transmission easy for non-CAD users
- Integrates CADfix/CADIQ translation, healing, repair, comparison and verification
- Snap-in support available for corporate portals and PDM systems
- Transmission support for HTTP, HTTPS, FTP and AutoWeb
- Compatible with firewalls, proxy servers and internet security appliances

### INTERFACE SUPPORT
